

## PHILLIES

(Continued from Page 1.)  
were not entirely blasted however, as the weatherman said there was a slight chance that the clouds might lift in the afternoon and give the sun and wind an opportunity to dry the playing field. All day yesterday and last night the grounds were protected as much as possible. Across the entire diamond was thrown a huge tarpaulin through which it was impossible for the water to penetrate. While the outfield was exposed to the weather it has a drainage system which officials of the club said would put it in fair condition a few hours after the rain ceased.

President Tener of the National league stated last night that every effort would be made to play today in order not to upset the plans of many spectators from out of town. It was also certain that in no event would the field be in shape for a fast contest such as was expected to result from the meeting of the Phillies and Red Sox for baseball supremacy of the world.

With the exception of Killifer, the Phillies' star catcher, who is nursing an injured arm, all of Moran's players appear to be in prime condition. After an examination of Killifer's arm yesterday by a specialist, it was said there is but slight chance for his getting in the series.

Manager Carrigan declared his men are as fit as a fiddle, and are going to win.

"We've got a tough bird in Alexander," he added, "but we've been looking over tough birds all year. One thing that I am counting on strong for my boys to come through is that they have not fallen down once when we needed a series to come through."

The Phillies while expressing confidence in coming out victorious in the series, declined to make any predictions.

"I hope we will win," Moran said. "The boys put their heart and soul into bringing the pennant to Philadelphia and they will strive just as hard to win the world's title. I know that nearly all the experts pick the Red Sox to win, but this does not injure us in the least."

"Alexander has been our mainstay in the box and he has performed wonderfully all year, but one must not overlook the fact that Alexander has won only about one-third of our games. Some people are inclined to the opinion that if the Red Sox should beat Alexander, we will throw up the sponge. We wouldn't. We have Demaree, Mayer, Chalmers, Rixey and McQuillan, any of whom are good enough to beat a lot of clubs when they are right, and every pitcher is in first class condition."

The disagreeable weather apparently had no effect on the bleachers, some of whom had been in line for more than 36 hours waiting for the opening of the gates at 10 o'clock this morning. Men and boys alike, refused to be outdone by the weather and maintained their steady vigil throughout the night, adopting every conceivable device to keep dry and warm. One group built a fire and by a sort of unwritten agreement, those who foraged for food were entitled to keep the places they had originally. In the early morning hours the line steadily was augmented by additional arrivals and by dawn it stretched for several blocks. Many of those who had places near the head of the line sold them to latecomers at a "fair" price and again took up their dreary wait further back. The possibility of a postponement of the game until tomorrow did not seem to lessen the enthusiasm of the waiting crowd in the least.

Although betting on the series has not been brisk, several wagers of fair size have been placed, mostly at six to five with the Bostonians the favorites. There seemed to be plenty of backing for the American League champions, but the would-be bettors were reluctant to give odds. Several bets were made on the result of the first game, National league supporters offering 3 to 2 that the Phillies would win provided Alexander was chosen to do the pitching.

Ticket speculators did not seem to be as numerous as in past years, but those who were in evidence secured quick action and good prices for reserved seats were in brisk demand.

Requests received by the management of the Philadelphia club far exceeded the seating capacity of the park, which is the smallest in either major league circuit, and the disappointed fans in many instances paid as high as fifty dollars for a set of three tickets with a face value of \$9. Similar sets of two dollar seats were sold by speculators at prices ranging from twenty to thirty dollars. Two of the vendors were arrested last night and given hearings in the night court. In both cases the magistrate held them for further hearing on charges of disorderly conduct.

Police arrangements for the series were announced last night. They include a detail of 300 patrolmen, mounted policemen, and 10 members of the motorcycle squad in addition to several score detectives and plainclothes men to be on the lookout for pickpockets.

**First Inning.**  
First half:—Hooper up. There was a delay until a moving picture man could be sent from the field. Hooper singled over second, and the Boston crowd howled. Scott up. Strike one. Scott sacrificed. Alexander to Luderus. Hooper going to second. Speaker up. Strike one. Strike two. Ball one. Foul. Speaker walked. Alexander appeared nervous. Hoblitzell up. Noblitzell forced Speaker. Second Half:—Stock up. Ball

## DODE GETS REWARD FOR NOT HURDLING

Dode Paskert.

Dode Paskert is going to get his reward for remaining loyal to the Phillies. He joined that club in 1911. Last year he had a chance to jump to the Reds. The amount of money hung on the contract made it alluring, but Dode turned it down. "The Philly fans have pulled for me and I owe it to them to stick as long as they want me," said Dode then. Now he's in for a nice fat slice of world series coin.

one. Strike one. Strike two. Stock out on a foul to Cady. Bancroft up, strike one. Bancroft flied out to Barry. Paskert up. Ball one. Paskert fouled out to Hoblitzell. No runs, no hits, no errors.

ALBERT LEWIS  
CREMATED IN  
STABLE FIRE

(Special to Advocate.)  
Martinsburg, O., Oct. 8.—Albert Lewis, 55 years old, who has lived at Utica and St. Louisville, Licking county, was burned to death last night at Walhonding, Coshocton county, when fire destroyed the livery barn and dwelling of William Johnson. Lewis had gone to the haymow to sleep and it is supposed that he accidentally set fire to the hay while smoking. A horse belonging to Ed Dodson, U.S. liveryman, and one belonging to Johnson, were burned in the flames.

Lewis, who is a barber and well known in Licking county, had driven to Walhonding, driving a team belonging to Mr. Dodson. He put the team for the night and asked permission to stay in the barn all night.

Lewis was known to be an inveterate smoker and it is the supposition that he fell asleep while smoking. The barn and dwelling were entirely consumed. Neighbors attracted to the scene by the flames of the barn, removed a small part of the household goods.

The loss on the buildings is partly covered by insurance.

BERGIN FREED  
OF CHARGE AT  
STATE'S ORDER

State liquor license department officials, prosecuting the cases brought here for violation of the liquor laws, yesterday asked Mayor Bigbee to dismiss the charges against William Bergin, who it was alleged, sold liquor illegally at Buckeye Lake. The entry was made on the state docket as requested.

Hugh McKenna, charged with the same offense, was fined \$400 and costs. Of this amount, \$100 was suspended so long as McKenna refrains from violation of the state's liquor laws.

The officials from the state department in charge of the prosecution, asked Mayor Bigbee to order McKenna to stay out of the liquor business at Buckeye Lake.

The court explained that the only way this order could be given was to suspend a part of the fine so long as he refrains from violation of the law.

This morning a police court, four drunks drew fines of \$5 and costs. The cases against Marshal Warthen and Constable Jones of St. Louisville, charged with intoxication, were continued until Oct. 16.

Women are now being employed in all the large factories in England where munitions are manufactured.

## True Secret of Keeping Youthful Looking

(The Beauty Seeker.)

"The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels normally active. Without these organs, the system, polluting the blood and lodging in various organs, tissues, joints. One becomes flabby, obese, nervous, mentally sluggish, dull-eyed, wrinkled and sallow of face, and aches and pains as they ought, without producing evil after-effects, has been the problem. Fortunately, there is a prescription of un-questioned merit, which may now be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble May apple, or its root, which has been called 'vegetable calomel' because of its effectiveness—though of course it is not to be classed with the real calomel of mercurial origin. There is no habit-forming constituent in 'Santal tablets'—hence the name—and their use is not followed by weakness or exhaustion. On the contrary, these harmless vegetable tablets tend to impart tone and elasticity to the relaxed intestinal wall. Santal tablets, which may be procured from any druggist—a dime's worth will give a more complete answer to any constipated, liver-troubled person."

## Chief Cause of Pimples, Blotches, Sallow Skin

(Messenger of Health.)

Unsightly eruptions, pimples, blotches, sallowness or muddy skin, usually are due to a sluggish liver, a clogged bowel and a polluted blood stream as a consequence. How foolish in such cases to resort to outward applications, which can never have natural, permanent results. If more people only knew it, there is a very simple remedy, to be found in any drug store, which is as effective as any harmless and quick acting. It is an old formula, long recognized by the medical profession, and is so easy to use, that at such small cost no one need now be deprived of its wonderful benefits.

"Santal tablets"—that's the name—are entirely vegetable and there's no habit-forming ingredient. You need only get about a dime's worth, and swallow one at bedtime to realize there's nothing else quite so good for the purpose. The action is so rapid, so easy, so effective, and the finest remedy known for constipation, and torpid liver, but off the same, most sensible treatment for complexion difficulties of the character mentioned.

## Great Demand for New Constipation Remedy

They say that the advent of the "santal tablets" as a vegetable substitute for calomel has resulted in an extraordinary demand for this remarkable product. It seems to have made a hit particularly with those afflicted with chronic constipation, who were quick to recognize its advantages over calomel and the usual laxatives. Santal tablets, aside from their efficacy, doubtless owe their success largely to a tendency to aid in bringing about natural functioning—instead of encouraging the "cathartic habit." Also, instead of injuring the membranous lining of the organs involved, they are of a soothing nature. Instead of weakening, they add tone to the intestinal wall. And they work so easily and promptly, they are of course preferred on this account to the violently acting purgatives. Their laxative effect is another reason for the popularity of santal tablets. They procure only a dime's worth, and take one tablet upon retiring, to be convinced that the ideal remedy for constipation, torpid liver, and their many evil consequences, has finally been found. # BALL PARK IN PHILADELPHIA ONE OF SMALLEST

BOSTON FIELD WILL GIVE FLEET FOOTED OUTFIELDERS

Plenty of Opportunity to Get Under Long Files of Sluggers of National League Club.

NEW YORK, Oct. 8.—Twelve months ago, when the Boston Nationals defeated the Philadelphia Athletics for the world's title of baseball champions, all the games were played at American league grounds and this year the contending teams will meet in National league parks. An exchange of courtesies between Presidents Gaffney and Lannin of the rival Boston clubs made possible an additional seating capacity of the games last year. In return for the kindness of President Lannin last season, Pres. Gaffney has placed Braves Field at the disposal of the American league pennant winners for the coming series thereby affording accommodations for several thousand additional spectators.

The new home of the Boston Nationals, where at least half of this year's battle will be staged, will seat possibly a few hundred in excess of 40,000 persons. At first an erroneous impression prevailed that Braves Field after the erection of temporary stands would accommodate 52,000 spectators. In fact a semi-official statement was made to that effect.

Since president Lannin accepted the offer of President Gaffney, Red Sox officials have been busily engaged checking up the seating capacity of the National league grounds, and they found the first reports to be considerably in excess of the actual figures reached after a thorough inspection of the grand and other stands, and bleachers. It has also transpired that a municipal ordinance exists which prohibits the erection of temporary structures and as the time is too short in which to build permanent stands on the grounds, a liberal estimate of the park's capacity places it about 42,000. This, however, will be far in excess of the possibilities of Fenway Park, where 35,420 persons, the largest attendance ever registered at a baseball game in Boston witnessed one of the games between the Braves and Athletics last October.

The playing field extends 385,500 and 580 feet, respectively from the home plate to left, center and right fields. Ranging over the broad reaches of Braves field, the fences in which are from 325 to 520 feet beyond the home plate, the fleet Boston fielders will have ample room for their great speed.

Another asset to the Red Sox in their home game will be these great distances to the fences on Braves field, which—unlike the shorter boundaries of the Philadelphia park—offer no easy mark to home run drives on flights within the reach of a fast fielder. Much of Philadelphia's offensive strength will be robbed by this fact also, Red Sox supporters believe.

National League Park, the home of the Phillies for many years, is one of the smallest grounds in either the National or American leagues. Its grand stand, which is of the double deck cantilever type, was the first modern structure of the kind in the United States. Built of brick and steel it was the finest baseball property in the country when constructed but is out-of-date as compared with the greater structures put up in the last few years. With additional seats, temporarily built for the coming series, the seating capacity of the grounds will not be more than 20,000.

Probably more than two games of the series may be played in Philadelphia and the park with its short fences will certainly suit the National league hitters. Three of these, Cravath, Luderus and Becker the pinch batter, are liable to hit one out of the enclosure for a homer, off any of the visiting Red Sox pitchers. With great boxmen on the mound runs generally are few and far between and a home run might win a game particularly if Alexander should be pitching for the side accredited with the circuit clout.

# TO DARKEN HAIR APPLY SAGE TEA

A few applications of Sage Tea and Sulphur brings back its Vigor, color, gloss and thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mix the sage tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

How He "Looked."

Two young men were standing in a hotel where they had gone to use the free comb and the free brush. One of them seemed to think he looked rather nifty. He had on a new suit of clothes and he turned and twisted as he admired himself in the glass. Finally he could not resist the temptation to hear the spoken word of commendation.

"How do you think I look?" he asked his companion.  
The other looked at him and sniffed.  
"You look like an accident going out somewhere to happen," was his retort.

# RECORD FOR FIFTH HEAT WAS BROKEN

ASSOCIATED PRESS TELEGRAM

Lexington, Ky., Oct. 8.—Only one stake race was on the program of the Grand Circuit meeting here today, that being the \$2,000 Bluegrass for 2:10 class pacers. This event had as entries Major Ong, Hal Boy, Judge Ormonde, The Beaver, Altwood, Russell Boy, and others.

The other races on the card were for 2:11 and 2:15 trotters and 2:15 class pacers for purses of \$1,000 each.

W. E. D. Stokes, owner of Peter Volo, two, three and four year old champion trotter, has notified trainer T. W. Murphy that he intends to retire the horse at the close of the Grand Circuit meeting here. Peter Volo will be taken to Patchen Wilkes farm and be retrained with Peter the Great.

Peter Scott, well driven by Thomas W. Murphy, won the \$5,000 Transylvania Stake, the chief attraction of the Grand Circuit card here yesterday, in straight heats. Worthy Prince was a close contender in the first two heats and Lizzie Brown in the third, but the winner was not extended and won apparently as Murphy pleased.

In winning the Tennessee Stake, unfinished Wednesday, veteran "Pop" Geers drove Napoleon Direct to a victory that broke the world's record for the fifth heat in a five-horse pacing race. The mile was in 2:01.12 and the heat was easy for Napoleon Direct.

The 2:03 pace, carried over from Wednesday after the four heats, proved the longest and hardest-fought contest of meeting, but was finally won by Barlight.

General Todd, owned by H. B. Rea of Pittsburg, won the pacing division of the Kentucky Futurity for 3-year-olds in straight heats from Lady Aubrey, Sad Thoughts and Arkad. Another bad spill occurred in the 2:12 class pace, Patrick M. Bessie R and Lord Seymour falling at the turn into the stretch, but neither of the horses nor drivers was injured. The race went six heats and finally was won by Dwight Logan, which finished first in the second, fifth and sixth miles.

In the 2:12 pace, Fogarty was put up in place of Taylor behind May Direct, after five heats.

William, the world's champion pacer, will start again today in an effort to lower his record of 1:59.1-2 to a wagon. He will be driven by his owner, C. K. G. Billings. Saturday, Peter Volo, the champion 2, 3 and 4-year-old trotter, will start to beat his record of 2:02.

John E. Madden announced that he had sold Walnut Tree to H. J. Schlessinger of Milwaukee. No price was given, but it was said it was in excess of \$10,000.

Grover C. Alexander.

Grover Cleveland Alexander, who is called by most fans, "the whole Philadelphia team," was born in St. Paul, Nebraska, Feb. 26, 1887. His parents were settlers in Nebraska when the Indians were running wild and Alex was born in a hut miles away from anywhere. Since he started out to conquer the earth six years ago he has had an interesting career.

## Production of Sugar.

More than one-fifth of the 40 billion pounds of sugar that represent the world's production last year was consumed in the United States. The consumption of sugar in the United States, exclusive of its sugar-producing islands during the fiscal year, ending June 30, has been calculated as 8,630 million pounds, or 86 pounds per capita.

Of the sugar consumed in this country in 1914-15, 1,941 million pounds were produced on the mainland, 1,281 million pounds in Hawaii, 589 million pounds in Porto Rico, 327 million pounds in the Philippines and the remainder in foreign countries. Cuba, the leading source of our imported sugar, sent us 4,785 million pounds in the last fiscal year, that quantity being nearly four times as much as that from Hawaii and eight times as much as that from Porto Rico.

Beet sugar now leads cane sugar by nearly one billion pounds in the yearly domestic product, having reversed the conditions which obtained twenty years ago. In 1895, for example, according to the Statistical abstract of the United States, the domestic sugar product totaled approximately 775 million pounds, the share of the beet sugar being only 45 million pounds. In 1915 our sugar product had increased to 1,941 million pounds, the share of beet having grown to 1,448 million and that of cane having decreased to 493 million pounds. Meantime, beet sugar has practically disappeared from our imports. Eighteen years ago, when the Cuban supply of cane sugar was cut off by war, we imported nearly 2 billion pounds of beet sugar. After the return of peace in Cuba our imports of beet sugar fell off sharply, and in the fiscal year beet sugar imports amounted to less than one million pounds.

The cutting off of the sugar supply of European countries has resulted in a remarkable expansion of our sales of sugar to foreign countries. For the fiscal year 1915 they aggregated 582 million pounds, as against 22 1-2 million pounds in 1900 and 40 1-2 million pounds in 1910.

Gov. Willis may be a college professor, but he is also no slouch as a politician. He is quietly gathering the strings that control the Republican state organization. Within ten days two of the state central committee men, John McAllister, of Marietta and George Hamilton, of this city, were given jobs in the state fire marshal's office. This in turn is presided over by Bert B. Buckley, of Dayton, who is a member of the committee from the third district. George Stauffer, of the fifth district, has been put on one of the numerous state commissions created last winter and there are many more. The foxey governor needs but few more to secure the absolute domination of that powerful body. That is why State Chairman Edwin Jones has opened an office and gotten back on the ground.

## The Power of Expression.

A school teacher was complaining the other day of the inability of her children to talk. On the playground no limit existed to their volubility. But in school they could not express themselves. It was not simply that they could not discuss matters that came up in lessons. They couldn't stand up to their desks and give a connected account of a ball game. If you ask them to describe an excursion they had enjoyed, all they can say is, "It was great."

And yet these are not the days of "Children should be seen and not heard." Young America has the floor and is permitted to interrupt his elders at will.

There are many mute inglorious Miltons in the world, having great gifts of observation and penetration. Their friends regret that they are so little known and appreciated. Usually they lack some gift of concentration. They can't focus their roaming genius and make it count. They can't formulate logically their thoughts and place them connectedly before other people.

It is a vital thing to develop this gift. The writing of essays and compositions is useful. Declamation of some other person's words helps toward self possession. But these exercises don't give readiness of personal expression. In the contracts of life, the right word and sequence of ideas must be nearly instantaneous.

Probably debates are the most useful means of bringing out this gift. Some people think that the power to think on your feet, to develop thought as you go along, is useful only to the orator and statesman. But every business man needs it to sell his goods. Every professional man needs it to sell his ideas. And there is no easier way for the person of humble position to rise, to sell his services to better advantage, than to show a gift for expressing ideas connectedly and reasonably.

Publication of the legal notice, required by the federal law, shows that the new Columbus Republican weekly, recently founded, is owned in its entirety by the president of a corporation in Columbus which manufactures railroad supplies. A vice-president of the concern was the founder of "The True or Glue Democracy." Odd, isn't it?

Ex-Senator Burton says that he thinks the tariff will be the paramount issue in 1916, but in his opinion, there won't be many radical changes in the schedules. Yes, yes, but what does he mean?

The deficit in the state fair fund caused by flooding the state with free passes for the politicians is now said to be approaching the \$30,000 mark. Joyous news for the taxpayers.

The election to be held next month will all have been decided according to local issues, according to the party that loses, and will be a glorious triumph on national issues, according to the side that wins.

The war maps may not be studied as carefully as they should be, but the diagram of the easiest way to do 100 miles in a Ford car excites profound attention.

It is almost as good fun to pay \$2.00 and see a good play as to pay 10 cents and see the same thing produced in the movies.

## Canada's Part in the War.

(Toronto Globe.)

Is Canada doing her share in the defense of the world's liberty against German militarism? N. W. Rowell, who is always master of his facts and is not given to overstatement, says very plainly that the Dominion has done and is doing far less in proportion to her population and her wealth than any other self-governing portion of Europe. He urges that this country should do at least half as well as the people of the United Kingdom and raise the strength of Canadians under arms to 300,000 men.

There is no dispute as to the facts cited by Mr. Rowell to support his appeal. The population of Great Britain and Ireland is about 47,000,000. Before the war began 600,000 men were serving in the army, the navy and the territorial forces. Since the war broke out 3,000,000 more have enlisted in Kitchener's army. There were in Great Britain before the war began about 1,350,000 more women than men, because of the fact that men emigrate more freely than women, and pay heavier toll in industrial accidents. The 3,650,000 Britons who have donned the uniform were drawn not from a male population of 23,500,000, but from one of 22,500,000 at most. It will be seen therefore, that over 16 per cent of the male population of all ages in Great Britain serves with the colors.

How do the figures stand in Canada? The census of 1911 showed an excess of males somewhat over 420,000. The disproportion in numbers of men and women has increased rather than diminished since 1911, and it would be entirely reasonable to assume that of the 8,000,000 persons in the Dominion when the war broke out 3,750,000 were women and 4,250,000 men. The enlistments up to now fall somewhat short of 160,000, or slightly less than 4 per cent of the male population, as compared with over 16 per cent in Great Britain.

These figures do not constitute the most serious part of the indictment. The Canadian people are not responsible for the use made of the troops of the Dominion sent overseas, and if the men—keen and eager as they are for active service—are held in reserve in England the responsibility is that of the British War Office. During the first year of the conflict, however, Canada was represented at the front by a single division of about 20,000 men. There are now at most 43,000 Canadian soldiers in France, or a little over a fourth of the total number enlisted. The number at the front is entirely inadequate when compared with the vast hosts sent forth from the British Isles. Canada will not be properly represented in the firing line until there are at least 60,000 men there, with ample reserves in Great Britain to make up the inevitable wastage.

## Spirit of the Press

England and the War.

Lord Kitchener says he knows how many men he wants for the colors, and he knows the names of the men and the numbers of their houses, and if they won't come he'll fetch them. Every nation has a right to the services of all its people, and if they are worth having a country they will not make a great deal of trouble about its demands. If they do make trouble, however, the nation is quite right in collaring them and dragging them to the place where they will be useful, whether a factory or a firing line. We did it, and all the other belligerents now are doing it.—Philadelphia Record.

## MOTHER AND MAID.

A maiden in a garden swing is surely an entrancing thing. She wears a gown of white, mayhap, a Chambers novel in her lap, her hands are soft and lily-white, and earth affords no fairer sight. Alan views her with romantic tears, and in his heart bewails the years, which bar him from the lover's vow, forbidding him so sweet a fiancé. And then around the house his goes, and sees her mother washing clothes, or hanging rags upon the line, with aches all up and down her spine. Her hands look fierce, for they were boiled, as o'er the tub she sadly toiled; her face is roughed by steaming duds, her eyes and hair are full of suds. The stranger tears his whiskers then, and goes back around the house again, and sees the maiden in the swing, a charming and delightful thing. "I'm glad," he sighs, "that I am old, I'm glad my blood is running cold, or I might fall upon my knees, before that damsel'neath the trees, and she might softly whisper yes—naught could be worse than that, I guess!"

## Granville

(Special to Advocate.)  
Granville, Oct. 5.—The members of the Epworth League and Ladies Aid society of the Methodist church gave a very delightful social affair in the parlors of the church, Wednesday evening, honoring the new pastor, Rev. Otto Gleson and family. The evening opened with the following interesting program: Solo by Mr. Cheadle; welcome on behalf of the new pastor and family, and new students who affiliate with the Methodist people, Miss Wilma Huffman; response for students, Miss Elma Oldham; welcome on behalf of the church membership, Mr. J. S. Graham; response by Rev. Mr. Gleson; solo, by Mr. T. B. Jones; reading by Miss Louisa Williams. After the program refreshments were served and games were played. About one hundred and twenty-five guests enjoyed the hospitality of these organizations. Miss Emma O'Daniel of Mt. Vernon is the guest of friends in town. Mr. G. T. Jones has been suffering with pleurisy for the past week at his home in Elm street.

## Society

**McDONALD—HARTER.**  
Mr. William T. McDonald, formerly of Millintown, Penn., now a resident of Columbia, O., employed as an inspector for the Columbia Tire and Rubber company, was united in marriage with Miss Nellie Harter, a very estimable young woman of Hebron, recently. The ceremony was performed by the Rev. Mr. Rickerts, United Presbyterian minister of Lisbon, O. The best wishes of a host of friends accompany them through life.

**CLENDENIN—HOUKE.**  
The marriage of Mr. John Clendenin and Miss Mildred Myrtle Houke was solemnized Thursday evening at seven o'clock by Rev. L. C. Sparks. The bride wore a suit of dark blue cloth and had a black velvet hat with elaborate trimmings and a corsage bouquet of bride roses. Mrs. Clendenin is the daughter of Mr. and Mrs. J. B. Houke of North Fourth street. They will be at home after October 12, at 51 Olive street, Gallipolis, O., where Mr. Clendenin is engaged in business.

Mrs. William Hazlett entertained the members of the Jolly Crochet club on Thursday afternoon at her home in the Hebron road. The afternoon was spent with fancy work and games, and the following were present: Mrs. Edward Roberts, Mrs. E. Van Arsdale, Mrs. F. Harrington, Mrs. F. Swartz, Mrs. L. Horn.

The next meeting will be held in two weeks at the home of Mrs. Robertson in the Hebron road. A merry crowd was delightfully entertained at the home of Miss Evelyn Pierson in South Sixth street. Games were played after which a dainty luncheon was served to the following: Misses Mary Reichert, Florence Simms, Florence Staynoff, Julia Staynoff, Opal Weaver, Ruth Vermillion, Bessie Everet, May Everet, Frances Donovan, Bertha Woolard, Elsie Barcus, Mary Pierson and Emma and Bernice Frye.

Mrs. Emmett Edwards delightfully entertained the members of the B. B. club at its initial meeting of the season at her home in North Williams street on Thursday evening. A short business session was held, the hours were devoted to needlework and a dainty two course luncheon was served the club members and the following guests: Mrs. Orrie Rogers, Mrs. G. O. Edwards, Misses Mabel Zimmerly, Marie and Mabel Baker, and Miss Ethel Edwards.

The next meeting will be held at the home of Miss Mabel Keyes in 62 North Pine street. The Isabela Sewing club was entertained Thursday afternoon by Mrs. Guy Hudson. The hours were spent in needlework. In the contest, Mrs. John Cosgrove and Mrs. Travers carried off the honors and were awarded prizes. A delicious luncheon was served by the hostess.

Misses Anna and Marguerite Marr of Washington, D. C., whose grandmother was Mrs. Gibson Atherton, formerly of this city, were the honor guests at a dancing party which will be given this evening by Mrs. A. T. Seymour at her home. ## Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

**What the Duke Said.**  
The Duke of Wellington, of course, never said "Up, guards, and at 'em!" at Waterloo, but it is generally known how near he came to saying it? Sir Herbert Maxwell in his biography of the duke points out what is the probable origin of the pleasing legend. Late on the afternoon of that memorable 18th of June the First and Second battalions of the Third chassours were foremost in the attack on Mount St. Jean. They had reached a crossroad unaware that British troops were lying behind the wayside banks according to orders to remain prone when under fire, but not actually engaged. Then at the proper moment Wellington's voice was heard, "clear above the storm." "Stand up, guards!" It was Mailland's brigade of guards that thus "stood up" and with a victorious rush swept the chassours out of the combat.—London Mirror.

**Thick and Thin Shells.**  
There are several kinds of high explosive shells, which have been designed for various purposes. For instance, there are the shells the case of which is very thin, so that their capacity for containing explosive may be increased. These explode instantly at the slightest contact and are used as mines, or, in other words, they cause damage not by the impact of their mass but by the fierceness of the explosion. Another kind of explosive shell is made by increasing the thickness of the steel case and reducing the charge of explosive. The explosion of this missile is calculated to take place a little after contact. This type is used for the destruction of solid defenses, like walls, earthworks, etc., as the thickness of the case and the slowness of explosion permit them to penetrate the fabric before exploding.—London Standard.

**The Man in the Iron Mask.**  
The Bastille, whose fall July 14, 1793, marked the birth of French liberty, was built in 1309 to defend Paris against the English. It is as a state prison, however, that the grim fortress is remembered and chiefly on account of the mystery of one romantic prisoner, the "Man in the Iron Mask," who was "interned" there in 1679 and died in 1703. As to who the prisoner actually was scarcely two authorities agree, but among the almost innumerable "claimants" have figured the Duc de Vermandois, son of Louis XIV.; the Duc de Beaufort, a supposed son of Anne of Austria by the Duke of Buckingham; a twin brother of Louis XIV. and Count Mattheoli, secretary of state to Charles III. The last two may be termed the favorites.

**Beetles of Prey.**  
Many beetles are bugs of prey. Predacious insects generally have wonderful appetites. The so-called "green fly," otherwise popularly known as "golden eyes," is, as a larva, a tremendous gobbler of plant lice. It thinks nothing of devouring 100 of them, one after another, at a meal. Thus insects themselves do much to keep the numbers of other insects down. But not even with their aid nor with all our ingenuity in devising methods of destruction could we maintain a successful fight against injurious bugs were it not for the help given by birds.

**A Foxy Reply.**  
One of the most caustic replies ever made during an election campaign was that of Fox when he called at a shop during one of his candidatures. The shopman happened to be a rabid opponent. Taking hold of a piece of rope, he said savagely: "Vote for you! I'd sooner hang you with this rope!" "Very interesting," remarked Fox blandly, examining the cord. "A family relic, I presume."—London Mail.

## TOMORROW IS CLEAN UP DAY

The governor of Ohio has by proclamation directed all citizens to clean up their premises on Fire Prevention Day, Saturday, Oct. 9.

The figures furnished by last year's fire statistics say "CLEAN UP!" in capitals. Half a million dollars would not make good the fire loss in Ohio from neglected rubbish during the last year. True, only 199 fires were caused by sparks from burning up rubbish on the premises to get rid of it, and only 27 are reported as from rubbish igniting. But more than half of the loss of \$917,658 reported as from flying sparks was from sparks lighting rubbish, and more than half the spontaneous combustion fires started in rubbish.

Careless smokers burned up \$268,330 worth, and most of these fires were from throwing cigar stubs or pipe ashes into rubbish. Children playing with matches or fire cost \$141,864, and in a majority of cases the blaze started in litter.

## Personal

Miss Eleanor Stasel left this morning for Springfield where she will be the guest of Miss Helen Arbaugh, who is attending Wittenberg college.

Mr. and Mrs. J. W. Seabold have returned from a few days' visit in Chicago.

Mrs. Ed Williams and Mrs. Henrietta Zueblin, of West Locust street, were visitors in Columbus yesterday.

Mr. and Mrs. Barrett Cohen of Los Angeles, Calif., who have been guests of Mr. and Mrs. Charles Hollander, left Thursday for New York City.

Mr. Cliff Hawkins of the J. J. Carroll store has returned from a trip to Cincinnati.

Leonard Whitehill left today for his home in Washington, Pa., where he will see Washington-Jefferson football game.

Mrs. Thomas Jones and daughter of Granville are shopping in Newark today.

Mrs. Lula Dawson and niece, Miss Elsie McKinney of Vincennes, Ind., have returned home after a pleasant visit with the former's niece, Mrs. C. M. Brown of Granville road.

The condition of Miss Ruth Davis of North street, who is ill with typhoid fever, is not improved.

Mrs. H. R. Green, residing north of the city, underwent an operation at the Newark City Hospital on Thursday. The attending physicians were Dr. J. T. Harbottle and Dr. Homer Davis.

## SOUR STOMACH

When vegetable food ferments it causes sour rising in the throat, the formation of gas in the stomach which distends it and causes pain often extending to the region of the heart and arousing a fear of heart disease. This condition is called acid dyspepsia.

Heartburn, a name applied to a pain in the pit of the stomach, with palpitation of the heart, results from acid dyspepsia.

It is a condition that can be corrected by the use of Dr. Williams' Pink Pills to tone up the digestive organs and by a proper selection of food. Send today to the Dr. Williams Medicine Co., Schenectady, N. Y., for the book "What to Eat and How to Eat." It contains information about the diet in health and sickness and is free on request. It gives complete information regarding the tonic treatment of many forms of stomach trouble with Dr. Williams' Pink Pills. There cannot be perfect digestion without a sufficient supply of red blood and there is nothing better than Dr. Williams' Pink Pills to enrich the blood and tone up the stomach.

Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$3.00, by the Dr. Williams Medicine Co., Schenectady, N. Y.

## THE COUNTY FAIR DID BIG THINGS FOR NERV-WORTH

**Demand for Remedy Very Heavy Since Over 600 Sample Doses Were Given Out at the T. J. Evans Booth.**

During and since the fair this world's greatest nerve tonic has been selling in increased quantities at the Evans drug store. The public's attention was called anew to the remedy in a fashion that counted. The large number of local endorsements which were printed in the half page ads convinced a great many sufferers that Nerv-Worth was what they needed. And the sample doses given out at the fair, almost all of them by Druggist Evans himself, were exceedingly effective in creating new demands for the medicine. Fourteen bottles of Nerv-Worth were emptied at the fair in administering the sample dose. As each bottle contains about 40 doses of a tablespoonful each it will be seen that nearly 600 visitors learned what Nerv-Worth tasted like on the fair grounds. There is something so pleasing, refreshing and invigorating in the taste of this remedy that no one can sample it without having a good opinion of its curative merits.

Remember that the Evans drug store gives out these sample doses to all comers every day for the asking.

## NEWS FROM THE COUNTRY SCHOOLS

The High school enrollment exceeds by 15 per cent that of last year. The number of graduates entering college this year is the greatest in the history of the county.

The copies of the school laws 1915 are now ready for distribution. This is the regular codified edition.

Many high schools are bending their courses toward the utilitarian standards. Hebron and Pataskala have fine domestic science and manual training departments. Inspection of these is invited.

That feature of the school law which provided for the suspension of certain schools is from results thus far evident very unpopular. However, a remedy is provided in Sec. 2722.

The Department of Education expects from this time forward to insist that all suggestions to High schools be carried out. This will mean great improvement over present conditions. Let us enter into this with the spirit of progress.

The improved methods of teaching primary reading is making a change for the better in that important art.

Boards are still reluctant in some places to follow the recommendations of the District Superintendent, as to teachers. They should remember that he is in great measure held responsible for results and should have full power given him by statute. Follow his recommendations and then if he fails hold him directly responsible.

Newark township boasts the first classified elementary school.

Who else will fall in line?

All are pleased with the new location of the County Superintendent's office, Room 408 Trust Building.

Once in a while some coward still addresses an anonymous letter to the addresses of an anonymous or State Superintendent. This is a practice that should be stopped. If your cause is just, come out in the open and we will try to make right the wrong if such exists.

Boards of Education that have suddenly had thrust upon them the building of a \$30,000 school building have a great problem. Nothing but a firm decision and all legal

# DON'T BE A VICTIM OF SUBSTITUTION

There is but one genuine ROUND OAK stove. For forty years the Round Oak Folks have concentrated their efforts in the production of this heater, which is today, in principle, scientifically correct. The prestige of this stove has stimulated over one hundred other manufacturers to imitate it in appearance and name, but as every imitation is always inferior to the original, so has it been with the imitations of this strong, simple, durable heater, which has always "delivered the goods."

Burns all fuel successfully and economically. Holds the fire forty-eight hours and gives a lifetime of service. So well recognized is the prestige and value of this stove, that after fifteen or twenty years of service, it brings more, second-hand, than cheap imitations do on the dealer's floor.

Insist on securing the original. We recommend and sell it.

## INTEREST GROWS IN COMING ELECTION; REGISTRATION HEAVY

That interest in the coming municipal election is increasing, is indicated in the greater activity among voters, who yesterday made it a point to go to their voting places to secure transfers or to register. Yesterday's registration was one of the largest recorded recently, outside of the general registration years. Ninety-nine new voters were listed in the various precincts, transfers were issued to 121 voters and 124 were received on transfers. Twenty-seven women were registered.

The biggest day's business was done in Precinct D' of the Sixth ward where six new voters were registered, 11 transfers issued and nine received on transfers from other precincts. Six new voters was the largest number registered in any precinct. In seven precincts six new voters were received.

Precinct registrars were instructed to check off and count the "live" voters in their sub-divisions. This information is for use in connection with the various referendum questions to come up at the regular election.

The two last days for registration come together next week. Friday and Saturday are set for the last opportunity for Newark voters to qualify in the municipal election.

## WOMEN WHO ARE ALWAYS TIRED

May Find Help in This Letter.

Swan Creek, Mich.—"I cannot speak too highly of your medicine. When through neglect or overwork I get run down and my appetite is poor and I have that weak, languid, always tired feeling, I get a bottle of Lydia E. Pinkham's Vegetable Compound, and it builds me up, gives me strength, and restores me to perfect health again. It is truly a great blessing to women, and I cannot speak too highly of it. I take pleasure in recommending it to others."—Mrs. ANNIE CAMERON, R.F.D., No. 1, Swan Creek, Michigan.

**Another Sufferer Relieved.**  
Hebron, Me.—"Before taking your remedies I was all run down, discouraged and had female weakness. I took Lydia E. Pinkham's Vegetable Compound and used the Sanative Wash, and find today that I am an entirely new woman, ready and willing to do my housework now, where before taking your medicine it was a dread. I try to impress upon the minds of all ailing women I meet the benefits they can derive from your medicines."—Mrs. CHARLES ROWE, Kennebago, Maine.

## OLD AND NEW WAY TO TREAT CATARRH

Breathing a Germ Killing Air Endorsed by Actual Results.

The discovery of Hyomel has wrought a wonderful change in the treatment of catarrh.

Prior to three years ago the medicines ordinarily employed in the cure of this disease were drugs, sprays, lotions, etc. In some instances they benefited, but the improvement was not lasting.

With Hyomel you take into the air passages of your throat and head a balsamic air that goes into the minutest cells, and should effectually kill all germs and microbes of catarrh. Its purpose is to enter the blood with the oxygen, killing the germs in the blood, and restore health to the whole system. Many astonishing testimonials have been received from those who have been helped by Hyomel.

A complete outfit is inexpensive and includes an inhaler, dropper and sufficient Hyomel for several weeks' treatment.

Perhaps the strongest evidence that can be given to doubters, is the fact that T. J. Evans has so much faith in Hyomel that he sells every package under a positive guarantee to refund the money if it does not relieve.

Now is the time to begin the use of Hyomel and rid yourself of this serious and oftentimes dangerous disease. Nothing is gained by waiting till the vicious microbes of catarrh have made still further inroads on your health.

## FRED FLETCH IS CARRIED FROM A BURNING HOUSE

[Special to The Advocate]

Summit Station, Oct. 8.—Fred Fletch of this place, narrowly escaped death Wednesday night when he was overcome by smoke from a fire which badly damaged his home. He was rescued through a window of the burning building by John Gross, attracted to the scene by the alarm. The house was badly damaged and some of the contents destroyed before the bucket brigade controlled the flames.

The blaze was discovered early in the evening and fire fighters attacked it promptly and it was believed to have been extinguished. Later, however, J. T. Sanford again observed flames on the roof and again summoned the fire fighters.

Mr. Fletch was sleeping in an upstairs room and was already in an unconscious condition because of the smoke. Dr. Wentz of Pataskala and Dr. Hopkins of Summit revived him.

The loss on the building and contents is covered by insurance in two policies amounting to \$1500.

This is the second fire which has damaged this same dwelling.

The body of Mrs. John C. Bowers was brought from Stevens Point, Wis., to the home of her brother, Mr. Charles Rankin, Thursday, Sept. 30. Mrs. Bowers was formerly Miss Mary Rankin, daughter of Mr. and Mrs. George Rankin. The death was an exceptionally sad one as Mrs. Bowers was just in the prime of life and was always popular with all who knew her. She leaves to mourn their loss a husband and three daughters, many other relatives and a host of friends, both in Wisconsin and Ohio. Funeral services were conducted Saturday at 10 a. m. by Rev. Harry Rankin, of Boston, Mass., after which she was laid to rest in a beautiful spot in Cedar Hill cemetery here. Those who attended the funeral from a distance were Mr. George Rankin, brother of the deceased from Canada, Mr. Walter Bowers of Indiana, Mr. and Mrs. Henry Kelly of Columbus, Mrs. Austin of Stevens Point, and Miss Edna Poundstone of Newark. Mr. and Mrs. George Rankin expect to return to Stevens Point, Wis., to spend the winter.

## Oleo Oil

What good housewife would throw away a clean, wholesome piece of beef suet!

It is the oil from clean, sweet, beef suet that is known as "oleo oil" and is used in the manufacture of "COLUMBUS" Oleomargarine.

The fat is carefully selected from the beef, cleansed by washing in clear, tepid water and then immersed in large tanks of ice water to remove all animal heat. It is then cut into small pieces and cooked at a high temperature. Then it is drained through steel wire screens into vats where cooling takes place. From these vats to hydraulic presses is the next step and the "first squeezing" from these presses is known as "Number One Oleo Oil" and is the oil used exclusively in the manufacture of "COLUMBUS" Oleomargarine.

You use suet every day, why not use this "Purest Spread for Bread?"

It will save you many dollars in a year.

## MODERN BEAUTY GRACES MYTH.

Miss Grace Gibson Posing as Merop, Who Desired Such Perfection as These Exercises Give.

The Fabled Lost Pictad Foolishly Hid for Having Loved a Mortal. If This Looks Like Merop, Any Modern Man Would Turn Green With Envy of Lucky Sisyphus.

By Anna Louise Shaffer.

(Copyright, 1915, by J. Keeley.)  
"The ideal is truer than the real, for the ideal is the eternal element in perishable things."

The aesthetic myths have their origin "close to the heart of things," and near and significant and enchanting to us is the atmosphere in which they carry us—the atmosphere of the imagination.

Merop, the sweet wayward traveler of the heavens who was separated from the constellation of the Pleiades may thus afford example and an allegory. She is shown with eyes searching and heart yearning for a chance to form part in the constellation of brightest beauty.

The cultivation of the imagination is an important thing in development—as it is in all progress, all art, all science. The mind picture must come before the hand can fashion or the soul create. It is well for us if we can take "the things that dreams are made of" and create an atmosphere of beauty in which to dwell. Then "if the environment be narrow we can look up to the stars" and find a spaceless region in which to dwell at times when life seems cramped and mean and overduel.

We must, therefore, bring to every exercise a mental state which is charged with imagination—have in mind an ideal of what we wish to accomplish. For instance, in practicing rhythmic deep breathing you are not simply breathing oxygen to be given out in carbonic acid, which is what science tells you and what you actually do, but you are breathing in vital force for your body's up-building.

Correct breathing is the basis of mental and physical activity and the true foundation of body building. Just as mental imagery is of mind building.

By an oversight the following lesson was not printed yesterday.

### Lesson XVIII.

Take this exercise rather quickly and combine it with deep breathing. Fully empty the lungs of all used air and inhale deeply and fully until lungs are completely packed and every lung-cell expanded. Sink on one knee, go back on heel, and stretching free leg as far and as strongly as possible, reach corresponding arm until fingers touch toes, as shown; hold position while exhaling. Draw active leg back and rise on that foot. Kneel and repeat.

## In Milady's Boudoir

By Gwen Sears

Walking before breakfast is not only a wonderful tonic but an ideal flesh reducer. Should the weather be unfavorable for walking, some brisk exercise should be substituted before the corset is put on.

Ripe, uncooked fruits, if possible, should be eaten before breakfast. Sugar, cream and milk, even in tea and coffee, which should be weak, should be used very sparingly. Almost all liquids are fattening, even water, and a salient rule, in all forms of treatment for obesity, must be to drink as little liquid as possible. In place of milk and sugar in tea, a few drops of lemon juice squeezed into it will be found refreshing and beneficial.

While I never like to suggest a diet, still, I cannot refrain from giving these few suggestions to those who are especially anxious and in a hurry to reduce. The ordinary white bread may be eaten sparingly, but whole wheat, graham and black bread should be eaten mostly.

Pastry, beer, liquors, and cocoa should not be touched. Figs, stewed prunes or ripe pears eaten before breakfast, will serve as laxative. Fish, game, poultry, green vegetables of all sorts, raw fruit, salads and pickles are all good if not eaten in too great abundance.

By being careful of ones diet, one should be quite able to remain slender throughout one's life. Don't forget, too, that exercise is very important if you wish to reduce.

## A "Womanly" Way to Remove Hair

Women nowadays remove the hair from their underarms not only to meet the dictates of fashion, but for the cleanliness and comfort of it. Those who shrink from the use of a razor will find the most agreeable way to remove hair from the face, lip, neck, or arms, is with El Rado.

El Rado is a sanitary liquid that practically dissolves the hair off in a few moments by dissolving it. Easily applied with a piece of absorbent cotton. Does not coarsen later hair growth, and is absolutely harmless. Money-back guarantee. At all toilet counters, 50c and \$1.00.

If you prefer, we will gladly fill your order by mail direct, in plain wrapper, if you will write enclosing stamps or coin. Adm. Mfg. Co., 66 East 25th St., New York.

## Your Boys and Girls

For the mother who objects to elaborate touches of color upon baby's frock there is a simple little English frock that is beautifully smocked and, while it is not embroidered in color, still has a bit of color in the smocking. The smocking is usually very fine for the small baby's frock, and pink, red or blue thread is used in the smocking itself.

This makes a tiny little needle point of the color at each diamond point of the smocking. Upon such a front should be a little lay-down collar, severed both at the back and front. This collar should be braid stitched about the edges with the same color as in the smocking. Turned back sleeves are also braid stitched as in the collar. There should be a smocked yolk, back and front, or the smocking should come in a tiny oblong over each shoulder, making a plain pinafore effect at the center of the yoke.

## CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

WHEN CROSS, FEVERISH AND  
SICK "CALIFORNIA  
SYRUP OF FIGS."

Children love this "fruit laxative," and nothing else cleanses the tender stomach liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sours, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally. In such a case, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen! Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs," because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeiters sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

**OLD TAX RECEIPT.**  
An old receipt for taxes paid on 11 1/2 acres of land in Bardonia township was brought to the advocate office. It bore date of 1821 and was issued to James Van Lest, by Elias Howell, collector. The amount was \$1 45 upon the land and 50 cents for county levy.

**HUNDREDS WILL TESTIFY  
RIGHT HERE IN OHIO.**

Springfield, Ohio.—"I used 'Golden Medical Discovery.' I was a tonic, and building-up medicine. I was run-down so that I weighed 15 lbs. less than usual. I was tired-out and suffering. I learned of 'Golden Medical Discovery' through a booklet left at the door, and used three bottles of 'Discovery.' I began to build up and get stronger and I now have my usual weight and strength back again."

Mrs. MAUD HAINES, 17 No. Shaffer St., Springfield, Ohio.

Dr. Pierce's Golden Medical Discovery is absolutely free from alcohol and injurious drugs. You can take it and be certain you will find it a true blood maker, tissue-builder, and restorative nerve tonic and that it will produce no evil after-effect. Thousands—probably many of your own neighbors—are willing to recommend Dr. Pierce's Golden Medical Discovery because it has made them stronger in body, brain and nerve.

You can get Dr. Pierce's Golden Medical Discovery in tablet or liquid form from dealers in medicine, or send 50 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for a package by mail.

**"Making Good" Makes Friends**  
There is no way of making lasting friends like "Making Good"; and Dr. Pierce's medicines well exemplify this. After more than four decades of popularity, their friends are numbered by the hundreds of thousands. They have "made good" and they have not made drunkards.

A good, honest square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery.

It enjoys an immense sale, while most of the preparations that came into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of.

## Judge and Victim in Russian Munitions Row

General Nicholas Petroff, Ex-War Minister Soukhomlinoff

The loss of Warsaw and Galicia by the Russians, due, all experts insist to the lack of munitions of war by the Russian armies, has resulted in a scandal which is to be aired at a military trial. In Great Britain, the lack of munitions, which has caused the loss of thousands of British soldiers at the front, has had no such result.

General Nicholas Petroff has been appointed president of the superior court to try the high military officials who failed to supply the army. Former Minister of War Soukhomlinoff will be one of the first to be tried by the court. He has been chiefly blamed for the failure to equip the army properly.

That ostriches once grew 15 feet in height is shown by remains found in the Island of Madagascar.

A seismograph invented by a Japanese scientist registers the velocity of all earthquakes 200 fold.

There are said to be 800 uses for the palmyra palm, which grows throughout tropical India.

## Opening Volcanoes With Canes.

Strolling across the bay of Naples, past the spot where the notable city of the present day is situated, our travelers come to Puteoli, or Pozzuoli, as it is now called, at present a decadent suburb of Naples.

This miserable and dirty town of some 10,000 inhabitants, as it now is, is connected by trolley and steam railway with Naples and is often visited by the modern tourist who wishes to see the remains of the ancient temples and amphitheater and the mighty mole, which still tell of the ancient glories of Puteoli.

Near by, too, is the volcanic field of Solfatara, not a mountain, but a flat plain, the crater of a low volcano, into which one can thrust his cane in many places and find smoke and sulphurous vapor issuing from the hole as he withdraws it. Probably there are few more dreary or disreputable places in Italy than this modern suburb of Naples. It has not the ragged picturesque quality which somewhat redeems the worst slums of Naples, but is a squalid, unwholesome town of the worst type.—Christian Herald.

## Big Gun Range Finders.

Said a man who knows mechanics as an open book, "The acme of precision and the perfection of all mechanism known to the human race is devoted to the art of killing men."

He was talking about the extreme exactness of range finders for big guns. "I know of no other thing in the wide domain of mechanics," said he, "that is worked out with so great care as these range finders."

He said that with that instrument it is possible to plant a shot within one yard of the desired target ten miles away. When I remarked that that required unusual delicacy this scientist replied, "No, not delicate, because one of these finders weighs 100 pounds, but they must be mechanically exact and perfect."

One might almost be tempted to say that killing men in war has become an exact science.—Philadelphia Ledger.

## Wouldn't Be Bullied.

Lord Kitchener, celebrated for his stern and exacting manner, met his match on one occasion and proved the fine quality of his nature by acknowledging the fact.

It was in the days when the railway was being driven across the desert to Khartum. A young Canadian officer of engineers was in charge of the work, which was progressing satisfactorily, when one morning the sirdar (as Kitchener then was) appeared on the scene and expressed his disapproval of certain features of the work with his usual bluntness.

The young officer listened until his chief had finished and then quietly inquired:

"Am I bossing this railway, sir, or are you?"

Kitchener gave him a quick glance, recognized him as one of his own sort, nodded approval and went away.

## Self Help in Case of Fire.

As a house is never attacked by fire at the top and bottom at once, if there is a safe and ready exit at both top and bottom very little danger to life is to be feared. It is important that all exits should be so known as to be easily found by day or night by every inmate of the house. If the clothes you have on catch fire a blanket, rug or some such woolen article should be quickly and tightly wrapped around you. Air is thus excluded, and the fire goes out. A small fire in a room can often be put out in the same way in preference to pouring water on it. In case of fire keep all doors shut as far as possible. If a room is full of smoke keep low or crawl, because smoke and hot air both rise.

## Build Up From Within.

If a psychologist can contribute anything to the progress of mankind he must first of all offer the advice not to rely on plans by which the attention is focused on the disasters which are to be avoided. Education by forbidding the wrong action instead of awaking the impulses toward the right one is as unpromising for peoples as it is for individuals. We must truly build up from within.—Hugo Muensterberg.

## His Luck.

"Brown never spends a cent for street car fare."  
"Rides on passes, eh?"  
"Oh, no. Three years ago he was kicked in the face by a horse."  
"Well?"  
"Now he has a horse scar of his own."—St. Louis Post-Dispatch.

## His Size.

He—Often when I look up at the stars in the firmament I cannot help thinking how small, how insignificant, I am, after all. She—Gracious! Doesn't that thought ever strike you except when you look at the stars in the firmament?

## Extremes in Apes.

The gibbon is the smallest of the manlike apes. Its arms are so long that it can touch its ankles when walking. The gorilla, which is often six feet high, is the largest of the apes.

## Dangerous Situation.

"Awful situation at the jail."  
"Dear me! What is it?"  
"They have the measles there, and all the prisoners have broken out."—Baltimore American.

The youth who does not look up will look down and the spirit that does not soar is destined perhaps to grovel.—Dismail.

Climatene is pure and harmless. Get it at your grocer's.

## Uric Acid Poison Undermines Health

Rheuma Drives it from the System and Eliminates Rheumatism.

Every since Rheuma has been sold in this vicinity, the sale of this marvelous rheumatism remedy has been steadily on the increase. This is due to the fact that Rheuma is guaranteed to eliminate rheumatism or money back. It cleanses the system of uric acid poison.

Read this proof: "After treatment by three doctors, without result, I have been cured of a very bad case of rheumatism by using two bottles of Rheuma. It is now two years since I used the remedy, and I am still as well as ever. Previously I was a cripple, walking with crutches."—Judge Barhorst, Fort Loramie, Ohio.

Rheuma is sold by T. J. Evans and all druggists at 50 cents. Get the genuine—in liquid form for internal use only.

## STATE BOARD MAKES REPORT ON OHIO CROPS

The following report is compiled from returns received from the official correspondents of the department:

**Wheat**—Estimated area harvested, 1,827,281 acres; product per acre, 20 bushels; total estimated product for 1915, 36,030,238 bushels; quality compared with an average, 86 per cent; crop of 1914 still in producers' hands, 9 per cent.

**Oats**—Area as returned by township assessors, 1,327,242 acres; product per acre, 42 bushels; total estimated product for 1915, 55,752,846 bushels; quality compared with an average, 89 per cent.

**Barley**—Fall and spring: Area as returned by township assessors, 19,193 acres; product per acre, 30 bushels; total estimated product for 1915, 569,736 bushels; quality compared with an average, 82 per cent.

**Rye**—Area as returned by township assessors, 134,789 acres; product per acre, 17 bushels; total estimated product for 1915, 2,218,338 bushels; quality compared with an average, 88 per cent.

**Corn**—Prospect compared with normal yield, 96 per cent; cut up for fodder, 72 per cent; average date for fodder cutting, Sept. 25th.

**Potatoes**—Probable total yield compared with last year, 97 per cent.

**Tobacco**—Prospect compared with an average yield, 89 per cent.

**Pastures**—Condition compared with an average, 112 per cent.

**Apples**—Prospect compared with last year, 107 per cent. Ohio's 1915 wheat production is the best harvest Buckeye soil has yielded since 1908. In that year the production was 39,279,000 bushels. The 1915 harvest shows an estimated total production of 36,030,238 bushels. Average production per acre, 20 bushels. Compared with report of one year ago, an increase of 7,263,709 bushels is shown in total production, while the average production per acre is two bushels greater than in 1914. Quality of the crop is only fair. Compared with average correspondents estimate it at 86 per cent. On corresponding date one year ago quality was estimated at 98 per cent. A small amount of last year's crop still remains in producers' hands.

The total oats production is estimated at 55,752,846 bushels. Average production per acre, 42 bushels.

## "Onyx" Hosiery

To a customer. Everybody knows it as the safest and best merchandise of its kind to buy. You can always identify it by the little medallion with the word "ONYX" inscribed in it.

Our hosiery department is filled with fall and winter lines of "ONYX" makes for men, women and children in silk, fine lisle in light and medium weight cotton, wool and cotton mixed and all wool. We mention a few of many qualities on display:

**FOR CHILDREN**—Splendid wearing hose in medium and heavy weight ribbed cotton. Prices—Pair ..... 15c and 25c

**FOR LADIES**—Fine lisle hose in black, white and colors. Light and medium weight cotton, cashmere hose in all black and black with gray foot. All qualities. A pair ..... 50c

**LADIES' SILK ROSE \$1.00 A PAIR**—A beautiful quality pure silk hose, black, white and colors. All sizes. A pair ..... \$1.00

**Select  
Fall and  
Winter  
Gloves**

Now while stocks are filled with all the popular colors. We carry a complete line. There is a characteristic "feel" to a Perrin glove. A flexibility and softness with a style that appeals to all critical women. Prices range—a pair \$1.25 to \$2

Is the best in the world. For years they have been imitated, but have never been successfully copied. They cost no more than the ordinary glove, but the wearing qualities are far superior to other makes. Ask for "Kayser" leatherette, chamol silk, double silk, or suede lined silk gloves.

CONTINUING THE SALE OF  
HAIR SWITCHES AT A GREAT BARGAIN.

REGULAR \$3.00 GRADE NOW \$1.95.

A beautiful assortment was placed on sale last week, and so varied was the range of shades that you can come tomorrow with the assurance of securing a perfect match for your hair. They are 28 inches long. The hair is of fine quality, soft and lustrous, and with a permanent wave. Every imaginable shade except gray.

## COCHRAN GETS RELEASE FROM PENITENTIARY

In the case of Burt Cochran vs. the State of Ohio, an error case taken to the court of appeals by Cochran's attorney, J. F. Lingafelter, a decision was rendered by the court in favor of Cochran. He was convicted in the common pleas court of the forgery of a check for \$17.50 on Edward Parlet of Chatham, in the April term of court and sentenced to from one to twenty years in the Ohio Penitentiary, being taken to that institution shortly afterwards.

The court of appeals finds an insufficiency of indictment and the non-production of the alleged forged check. After the entry has been completed on the docket an order will be issued on the same by the court and forwarded to the prison officials and Cochran will be given his freedom. He has served a little over five months in the state penal institution.

## Theatres

**Tonight's Attractions.**  
Alhambra—"The Explorer" featuring Louis Tellegen.  
Mazda—"The Way Back" (Miriam Nesbit and Frank McGlynn.)  
Grand—"The Whirlpool" (Neil Craig and Warda Howard), Hearst Bell News Pictorial.  
Auditorium—"Little Mademoiselle" featuring Vivian Martin.  
Lyric—"The Deceivers" (Agnes Vernon); "Courage" and "How Early Saved the Farm."  
Kozy—"The Seal of the Navy" (Lillian Lorraine); "Shot in the Fracas."

**Serfdom.**  
Serfdom was abolished in Russia in 1861, in England in 1690, in France not wholly until the French revolution, in Prussia in 1792, in the rest of Germany 1781, in Denmark 1796 and in Brazil 1867-88. There is now practically no legalized serfdom anywhere on earth.

**An Exception.**  
"No man would approve of the recall as applied to himself."  
"Oh, yes; an actor would!"—Baltimore American.

**Portable Hostelry.**  
"When I landed I took the car for a hotel."  
"What a singular mistake."—Boston Transcript.

Thought and action are inseparable. As is the thought, so is the life.

In nearly all the French ammunition factories the majority of workers are women.

Many women are employed for making army shirts in France.
